Conservative vector fields have the property that the line integral is path independent, i.e., the choice of any path between two points does not change the value of the line integral. Path independence of the line integral is equivalent to the ... Thu, 15 Mar 2018 04:42:00 GMT Conservative vector field - Wikipedia - In physics a force field is a vector field that describes a non-contact force acting on a particle at various positions in space.Specifically, a force field is a vector field â†', where â†' (â†') is the force that a particle would feel if it were at the point â†'.
